

May Day 2022

Workers of The World Unite! Stop Privatization/Union Busting & The War at Home & Abroad General Strike & Labor Party Now

Sunday, May 1, 2022

9:00 AM - 10:00 AM

Harry Bridges Plaza, San Francisco

Harry Bridges Plaza is between the Ferry Building & Market St. (where you see two towers in front of the Ferry Building)

After rally, join Bay Area Labor Councils for labor march to Civic Center.

Workers around the world will be uniting for May 1st. There will be a rally in San Francisco starting at 9:00 AM with workers voices, poetry and songs.

The victory of the Amazon workers is a sign that workers can organize despite the reactionary labor laws and billionaire Bezos effort to terrorize workers. We need to build united fronts against privatization, fascism and the wars abroad. Workers have the power to win when we unite the class struggle of all workers and move toward general strike action.

We are opposed to the US war drive to surround Russia and China. End the war on Ukraine and oppose the Russian invasion and US -NATO war drive!

We demand freedom for Assange and an end to repression against other journalists, and freedom of all working class prisoners here and around the world.

We need democratic unions that fight capitalism, labor management partnerships and oppose the US labor leadership's support for US imperialist wars and taking \$75 million from the US government National Endowment for Democracy (NED) for organizing coups and rightwing unions abroad.

We need a democratic labor party that fights the attacks on working people by the Democrats and Republicans. The main enemy is at home!

An Injury To One Is An Injury To All! United We Stand, Divided We Fall!
