

ICE Out Of MN

Support The General Strike On the 23rd

SHUT ICE Down & STOP Newsom's Support For ICE Funding

The fascist military occupation of Minneapolis and Minnesota is being opposed by unions and labor with a general strike on Jan 23. This occupation is aimed at crushing the working class and people of Minnesota and then expanding to other cities.

Trump is preparing for martial law to stop any further elections using the Insurrection Act. The Democrats and Courts will not stop this fascist and his billionaire techno fascist cronies who are running the government. Unions in NYC and other cities are calling for rallies on the same day and we need rallies and a general strike nationally.

In California, Governor Gavin Newsom is backing up ICE and says that it should not be abolished despite the murder of Renee Good and the terrorism of these goons. The murderous methods of this gestapo operation is also being expanded with the \$170 billion passed in Trump's budget. This is just the beginning.

We also need to demand the withdrawal of all US troops and military abroad. These imperialist wars are financed by both the Democrats and Republicans who passed a trillion-dollar budget, and now Trump is preparing for more wars abroad by expanding the military budget to \$1.5 trillion.

We need to unite our struggles and shut down the fascist government and organize a mass national strike action to closing down the entire country. That is coming

Rally At CA State Building
Friday January 23, 2026 4:00 PM
At: California State Building
350 McAllister St @ Van Ness
San Francisco

closer as this war on the working class is expanding and workers and unionists are fed up with fascism.
