

Stop Trump's Fascist War on Iran General Strike Now!

The fascist war threat by Trump to “bomb Iran back to the stone age” is an attack on the entire world's working class and people. His bombing of the largest nuclear power plant in Iran would possibly lead to a dirty bomb nuclear explosion contaminating the entire Middle East and world.

Trump has also attacked Venezuela, is strangling Cuba, is supporting the Israeli genocide and pogroms in the West Bank and is threatening wars throughout the world as well as continued sanctions on countries that oppose US imperialist demands. Israel, fully supported by the US, has threatened to turn Lebanon into Gaza and Trump has the same plans for Iran. The Democrats have helped fund these wars. At the same time, he is telling the US people that the government cannot pay for child care and other public services but has to focus on expanding the war machine with a 50% increase to \$1.5 trillion.

This has even led to a split in the US military. Over 20 top officers have been removed or resigned who do not want this undeclared and Illegal war

Tuesday, April 7, 2026

4:00 PM

At: SF Federal Building

90 7th St., SF

which is really a suicide mission for US troops. We support US troops who refuse these criminal orders and arrest any officers that tell them to commit war crimes.

We call on all workers and unions to support the calls for a general strike on May Day 2026, and to march together against imperialist wars abroad the capitalists here at home. We support an independent democratic mass workers party with a program for working people against the techno fascist billionaires running the US and the world. This Tuesday is Trump's “deadline” before his threat to bomb the nuclear power plants and expand the war globally.

Join us at the San Francisco Federal Building 90 7th St./Mission to oppose this insanity and threat to the people of Iran and the world.
